

R-50

Bench Top Sample Coater

The R-50

"The Little Zip"

-  The R-50 is the unique baby brother in the Ronci centrifugal coating machine family.
-  Ideally suited for small quantities, or small parts, it requires only a small amount of coating material.
-  Its one gallon plastic reusable material tank allows for dip-spinning and storage in just one vessel.
-  The hydraulic drive motor provides rapid acceleration and deceleration to facilitate parts movement for maximum coating efficiency.
-  It is a perfect fit for coating development and laboratory use.

Specifications

Work Basket:

4.5" Diameter

2.5" Useful Depth

4.0" Overall Depth

Volume - 62 Cubic Inches

Material Tank:

One Gallon Plastic Container

Requires one quart coating material.

Motor Equipment:

½ HP 60HZ 3PH Standard

Hydraulic Controls:

Infinitely Variable-Speed Spin Motor

0-1400RPM

Dimensions:

24" Width 39" Height

Weight 325 Lbs
